to International Diabetes Federation (2007); India has an estimated 41 million people with Diabetes which is expected to more than double to 73 million by 2025. However, no scientific study has been carried out so far to find out rate at which study has been carried out so far to find out rate at which the diabetes patients increasing in the country. The projected figures of Diabetes in India indicated that they are increasing in the country. The projected figures of Diabetes in India indicated that they are increasing at a rapid rate.

It is proposed to launch a National Programme for Prevention and Control of Diabetes, CVD & Stroke during the Eleventh Five Year Plan with the focus on increasing public awareness thereby preventing the common risk factors associated with these diseases.

Community Health Centres for Madhya Pradesh

†4079. SHRIMATI SUSHMA SWARAJ: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether there is a proposal to set-up one Community Health Centre each for the population of one lakh during the mission year 2005-2012 under National Rural Health Mission;

(b) if so, the amount sanctioned for this purpose during this year; and

(c) the number of Community Centres proposed to be opened in Madhya Pradesh under this scheme alongwith the amount sanctioned for this purpose this year?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) and (b) The State has proposed provision of 30-bedded CHC per one lakh population for improved curative care to the population under the Programme Implementation Plan (PIP) 2007-08 of National Rual Health Mission (NRHM).

(c) The State of Madhya Pradesh proposes to construct 120 Community Health Centres (CHCs) to fill up the gaps as per 2001 population. The State proposes to construct 10 CHCs during 2007-08 at the total cost of Rs. 102.59 lakhs per CHC. However, the State has requested for Rs. 20.00 lakh per CHC to initiate this activity.
